Mimos organises frontier tech meeting

MIMOS Berhad recently organised a three-day meeting on frontier technologies at the Tanjung Rhu Resort in Langkawi. About 30 people, including Mimos' heads of frontier technology divisions and members of the media, joined the three-day event.

Among the topics discussed at the event included Mimos' strategy and current development in its frontier technology research and development, and how these technologies can be used to move Malaysian ICT industry higher up the value chain and allow Malaysia to compete globally.

Besides the hi-tech discussion, the event participants had the chance to test their skills at beach volleyball and karaoke. – **By Izwan Ismail**

Think-tank: From left are Mimos' director of microsystems and MEMS Prof Dr Masuri Othman; senior director, communication networks and solutions Dr Mazlan Abbas; director, artificial intelligence Dr Dickson Lukose; president and chief executive officer Datuk Abdul Wahab Abdullah, and head, information security cluster Prof Dr Mohamed Ridza Wahiddin.
